

SUMMER ROCK! CAMP

AUGUST 9-13 2010

10:00-1:00 pm

For ages 10-20 years

Coaches:

Steve Newton

Randy Parris

Come take part in a rock-solid week of Rock Music. Playing in a group really develops your listening skills as well as being an enjoyable way to play your instrument with other musicians and improve your technique on chording, lead and rhythmic playing.

This camp is open to guitarists, bassists and drummers interested in playing rock music and great tunes chosen from the legends of the 70's and 80's through to the rock hit makers of today. Participants should be able to read a chord chart and have familiarity with their instrument. A final concert will be given on Friday, August 13 for family and friends with a pizza lunch. Camp participants will receive a CD of the performance.

Bring your guitar, amp (and pick), drummers should bring sticks (we have two kits available).

Steve Newton; brings a rich background of bass, electric guitar and MIDI music instruction to the IMC. He has had extensive performance experience with rock shows and bands and has coached at Rock Camp for many years. Steve always enjoys his music and brings enthusiasm and wit to his music instruction – his formal training and approach also allow him to clearly explain the theory behind the music, and he aptly goes under the title of “rock theoretician”.

Randy Parris; is one of our busiest teachers and has been teaching guitar professionally for well over 15 yrs. He has seen many sides of the music business: running a music store after studying music at Central Washington University, touring with bands and, always teaching - guitar to budding rock musicians and, on his mellow side, harp. Randy has a good ear for a well crafted electric guitar sound and encourages all his students to get the best out of their instruments.
